

Remarks/Arguments

The new claims 16-32 of the subject application are directed primarily to the left and center portion of Figure 3 whereas the claims of the co-pending parent application 09/581,887 address primarily the right side of Figure 3.

The drawings have been reviewed and substitute drawings with red-ink markings are submitted herewith. The amendments hereinabove to the specification now conform to the enclosed amended drawings. Figure 1 is a diagrammatic view of a wind power installation feeding into a network which represents the present system. Thus, Figure 1 is not prior art. The drawing changes to Figures 2, 3, and 4 are described hereinabove on page 11 of this paper. It is respectfully submitted that these corrections do not contain new matter.

Applicant respectfully requests consideration of the above and entry into the record.
